

## **Société Jersiaise Autumn walks**

### **Available to Members Only**

Knowing how few of us would want to cram into a room for the usual Autumn Lunchtime Talks, and how tired we are all getting with on-line activities, we decided to organise Autumn Walks. Two of the walks have a topical Liberation theme – marking the 75<sup>th</sup> anniversary of the Island's liberation.

Each of these walks has limited numbers to allow for social distancing, so book while you can. Either follow the Eventbrite link in your e-ews, or ring Clare in the office, who can add you to the list. Only Société Jersiaise members may attend as others would not be covered by the Société insurance.

#### **Saturday 7 November - 2pm**

**The Occupation in St Lawrence**, with Sue Hardy

Meet at St Lawrence Church Lych-gate

Group size: 20

Duration: 2 hours

During the Occupation the presence of the German forces in St Lawrence could not be ignored - they were everywhere! Walk a new route through lanes relatively sheltered from the weather - whatever it is! - in the footsteps of some of the people whose stories we shall discover from original research for the current Parish 75th Liberation Exhibition, which focuses on life during WWII. We will pay our respects to some of the individuals named on the Parish War Memorial on the day before Armistice Day...

# Société Jersiaise Autumn walks

## Available to Members Only

### **Sunday 8 November – 10.30am**

A much anticipated day – with Ian Ronayne

Meet by the 'Needle Monument' on Albert Pier.

Group size 20

Duration: 2 hours

Follow the steps of Jersey's liberation on 9 May 1945 and hear the Liberation Day story in the places it took place.

### **Sunday 15 November – 11.30am**

**A Marine Amble at Green Island** - with Chantelle de Gruchy, Paul Chambers, Bob Tompkins, Chris Isaacs

Meet: At the top of Green Island slipway

Group size: 15

Duration: Approx 90 minutes, depending on weather, species found and interest. 2 hours max.

Clothing and footwear: Please bring warm, waterproof clothing, sturdy footwear and drinking water. Walking terrain will be over sand, rock and seaweed.

Lead by Chantelle de Gruchy and Paul Chambers, explore the intertidal area at Green Island with the Marine Biology Section. We will identify marine species found along our walk, finishing with a look at Green Island itself.

### **Wednesday 18 November – 1.15pm**

**Discovering ancient civilisations at low water** - with Bob Tompkins

Meet at Seymour slip

Group size: 18

Return time: 4.30pm (duration 3 hours)

Clothing and footwear: Wellies essential, plus suitable clothing for the day

Low water is a 1.48 meter tide giving maximum time to explore. Bob will take the group to one of the key areas which shows what he believes to be a site that was developed over several hundred years and encapsulates a number of broken quern stones.
